TEST REPORT
IEC 61400-23:2014
Wind Turbines – Part 23: Full-scale structural testing of rotor blades

IECRE Report Number: .................. : IECRE.WE.TR.BT.20-00006-R0
RETL internal Report Number...... : 3542
Date of issue ........................... : 2020-04-17
Total number of pages .............. : 122

RE Testing Laboratory: Blade Test Centre A/S
Testing location/ address .......... : Landdybet 10, bg 87
                                  DK-9220 Aalborg

Applicant’s name ..................... : Vestas Technology R&D
Address ................................... : Stag Lane
                                      Newport
                                      PO30 5TR Isle of Wight
                                      United Kingdom

Test item description ............... : V150 S/N 238002
Manufacturer ......................... : Vestas Daimiel
Model/Type reference ............... : V150- 4.0/4.2 MW
Ratings ................................... : Mk3E

Tested by (name, function,
signature) ................................ : Printed name/function
                                      Signature
                                      Nicolai Vangsgaard / Test Engineer

Approved by (name, function,
signature) .......................... : Printed name/function
                                      Signature
                                      Henrik Broen Pedersen / Test Engineer
